EXAMPLE RESUME - replace it from /admin > Settings

Patrick Melaga

Network & Systems Administrator - Full-Stack Developer - Designer
contact@example.com - +237 600 000 000 - Yaoundé, Cameroon

EDUCATION

2025-10 - 2026-07

Computer engineering technologist degree - Systems and Networks track

IAI Cameroun, Yaoundé

Third year: enterprise network architecture, systems security, virtualization, monitoring and a final-year project. Earned alongside the professional bachelor's degree.

2025-10 - 2026-07

Professional bachelor's degree in Systems and Networks

IAI Cameroun, Yaoundé

Advanced routing and switching, VPNs, Linux and Windows network services, infrastructure administration and security.

2023-10 - 2025-07

DTS - Higher Technician Diploma in computer science

IAI Cameroun, Yaoundé

Two years of fundamentals: algorithms, programming, databases, networking, operating systems and software engineering.

EXPERIENCE

2025-07 - 2025-09

Academic internship - network administration (example to complete)

Structure d'accueil à renseigner, Cameroun

Replace this entry with your real internships from /admin Journey: tasks, tools used, observed outcomes.

SKILLS

Networking — IP routing (OSPF, BGP, static), Switching & VLANs (802.1Q, STP), VPN IPsec & OpenVPN, MPLS (L3VPN labs), Cisco IOS & Packet Tracer / GNS3, pfSense / OPNsense, Enterprise Wi-Fi & structured cabling

Systems & security — Linux (Debian, Ubuntu, Rocky), Windows Server & Active Directory, Virtualization (Proxmox, VirtualBox), Docker & Docker Compose, Monitoring (Zabbix, Grafana), Hardening & firewalls (UFW, iptables), Bash & PowerShell scripting, Backup & disaster recovery

Full-stack — TypeScript & JavaScript, React & Next.js, Python & Django, PHP & Laravel, PostgreSQL & MySQL, REST APIs & authentication, Git & CI/CD

Design — Figma (UI, prototypage), Visual identity & logos, Design systems & tokens, Adobe Illustrator & Photoshop

PROJECTS

2026

Three-site interconnection over IPsec VPN with an MPLS lab

pfSense, IPsec IKEv2, OSPF, VLAN 802.1Q, GNS3, MPLS L3VPN, MP-BGP

2025

Infrastructure monitoring with Zabbix and Grafana

Zabbix 7, Grafana, PostgreSQL, Docker Compose, SNMPv3, Proxmox, Linux

2025

Internship management web platform

Python, Django, MySQL, Nginx, Gunicorn, Bootstrap, Linux

2026

"Signal": visual identity and design system for this portfolio

Figma, Design tokens, Tailwind CSS, SVG, Next.js
